

“Restore London have provided excellent support throughout. Their attention to detail and co-operation ensured a first-rate scheme was delivered to our prestigious client”.

Richard Cherry MRICS - Project Surveyor, Wates

Scope of Works:

Working on this dramatic store refit scheme, developed in London’s Regent Street by Foster & Partners as lead sub-contractor, Restore London were initially engaged to offer consultancy, advice & budgets. Our remit included the external façade cleaning and refurbishment, the renewal of large internal Portland stone arches, which included the design of bespoke ventilation containment in natural stone. Other works successfully carried out included bronze restoration, tiling & Venetian polished plaster. External façade restoration included restoration of existing marble, cleaning & repairs to the masonry, mosaic restoration, bronze repair work & patination. The Project was completed on time & has won many plaudits, with particular reference to the Restore London team’s contribution.
