

“Restore London provided invaluable expertise in the Portland stone alterations & modernisation of the granite plinths. Quick innovative solutions were found to overcome onsite problems & the team worked hard to ensure the project was completed on time and looked great.”

Owain James – Senior Project Manager, Knight Harwood

Scope of Works

Working collaboratively with Knight Harwood on this major refurbishment of a six-storey City of London office building providing high-quality, sustainable office accommodation, complete with terraces on every floor offering views across the city. Restore London undertook the lead role on the external façade restoration works.

Works included super-heated steam cleaning & restoration works to the Portland stone façades, followed by detailed dilapidation surveys & repairs & re-pointing works.

Extensive alterations to the stone entablature, including new openings, were sympathetically carried out, along with installation of new matching granite plinths. Finally, brickwork was repaired, restored, & infilled on the North elevation.
