

“Restore London provided a seamless delivery of the Phase 1 external repairs and redecoration at Parkside, Knightsbridge. Their impressive expertise, quality of work and can-do approach was consistently praised by Leaseholders. I would highly recommend Restore London for future external repairs, redecorations, and restoration projects with an ensured proactive, interpersonal, and highly professional approach.”

Christopher Mitchell MRICS – Senior Building Surveyor, Colliers

Scope of Works

Restore London executed this project in 3 phases, carefully programming the works in normal hours whilst ensuring all residents were unaffected and abiding by regulations set out by The Royal Parks. Tenants were frequently updated with our busy works schedule via newsletter. The restoration works involved installing a fixed safe access scaffold, then cleaning the building façade using a super-heated steam process that removed the surface soiling. Followed by a comprehensive condition survey of the building components, identified defects and decayed materials restored. All works were completed on time, to a high standard and to the satisfaction of the client and residents.

Project Name:	Parkside
Location:	Knightsbridge
Client:	Colliers
Principal Contractor:	Restore London
Duration:	25 Weeks
Completion Date:	Sept 2023
